Portfolio, with live AI prototypes: www.khanfaraz.in

SUMMARY

Senior UX Lead with 11+ years turning complex products into interfaces people trust, across lending, enterprise analytics, and AI-native systems. I started as a graphic designer in 2011, and as the industry changed shape, so did I. By 2015 I had made the full shift into UX, and that is where I found my depth: the dense, demanding products most people find intimidating. A decade in, I sit between design, data, and engineering, and I ship build-ready work, not just decks.

www.khanfaraz.in is where my recent work lives: AI-native product concepts built as live prototypes you can open and click, including a console for supervising AI agents where a person keeps every consequential call.

Open to relocation (Gulf, Europe) and to remote roles.

EXPERIENCE

Persistent Systems · Senior User Experience Lead

Jan 2026 - Present · Pune, India

- Lead UX across enterprise client platforms end to end, from research and information architecture to build-ready Figma handoff.
- Design AI interaction patterns on a human-in-the-loop rule: AI proposes, people decide, and every output shows where it came from.

User Experience Lead, Persistent Systems

Feb 2023 - Jan 2026 · Pune, India

- Redesigned a digital lending journey for a leading Indian NBFC: **6 loan products in one native Android app, roughly 60% faster processing** than the paper process it replaced, validated across 5 rounds with 20+ participants; agents needed about **40% less training** on the new UI.
- Built a **100+ component design system** that unified all 6 loan products, and maintain design systems that hold up across web, mobile, and enterprise clients.
- Embedded UX inside Agile delivery (Jira, Confluence), keeping product, engineering, and business aligned every sprint.

InfoCepts · Assistant Manager, Data Visualization & UX

Jan 2022 - Dec 2022 · Nagpur, India

- Designed executive dashboards for global BI clients, built so leaders get the answer without hunting for it.

Senior UI/UX Designer, InfoCepts

Dec 2017 - Dec 2021 · Nagpur, India

- Designed analytics products for global clients across Power BI, Tableau, and MicroStrategy.
- Ran usability audits and heuristic reviews on live analytics products, then shipped the fixes.

MobiSir Technologies · Senior UI/UX Designer

Jan 2017 - Dec 2017 · Bengaluru, India

- Designed websites, mobile apps, and social platforms end to end: sitemaps, flows, wireframes, and interactive mockups.
- Applied heuristic evaluation, personas, and usability testing to sharpen task flows across platforms.

Circuit 9 Communications · Senior Visualizer

Apr 2016 - Dec 2016 · Bengaluru, India

- Produced brand and campaign assets across print and digital; turned marketing briefs into production-ready creative with the technical team.

Jack of All Threads · Senior UX/UI Designer

Feb 2015 - Mar 2016 · Bengaluru, India

- Led UX and visual design for India's first crowdfunding platform for custom apparel: design a tee in the browser, set a goal, sell it before anything is printed.
- Designed the in-browser Design Studio, the two-sided campaign flow, and campaign-owner dashboards. Covered by The Hindu, Deccan Herald, DNA, YourStory, and Inc42.

Jainawin Retails · Graphic Designer

Jan 2013 - Dec 2014 · Bhopal, India

- Built brand identities, logos, and templates for a consistent look across the brand; designed print and digital campaigns end to end.

Prime Advertising · Graphic Designer

Nov 2011 - Dec 2012 · Bhopal, India

- Created print and digital ad campaigns for local newspapers and businesses, from client brief to production-ready art.

SKILLS

Design & Product	User Experience Design, Product Design, Design Systems, Interaction Design, Information Architecture, Wireframing & Prototyping, Usability Testing, Heuristic Evaluation, Accessibility (WCAG), Visual Design
Data & Analytics	Data Visualization, Dashboard Design, Power BI, Tableau, MicroStrategy
AI	AI-Native Product Design, Human-in-the-Loop AI, Prompt Engineering, ChatGPT, Claude, Google Gemini, Generative AI
Tools	Figma, Adobe XD, Illustrator, Photoshop, InDesign, Jira, Confluence, GitHub, HTML, CSS
Ways of Working	Agile / Scrum, DesignOps, Stakeholder Management, Design Handoff, Cross-functional Collaboration

CERTIFICATIONS

Advanced Certificate in UI/UX with Agentic AI & Gen-AI, IIT Madras (pursuing)

AI for Designers, Interaction Design Foundation

Journey Mapping, Interaction Design Foundation

AWARDS

Bravo Individual Award, Persistent Systems

Humanity Mindset Winner, Persistent Systems

EDUCATION

B.Sc. Multimedia, Vishwakarma Creative-i College, Pune · 2008 - 2011
